CLASSROOM SPOTLIGHT

In Mrs. White's Freshman Entrepreneurship class, a dynamic environment has emerged where students are not just learning about business, but actively engaging in the entrepreneurial journey. Mrs. White, with her innovative approach to education, has transformed her classroom into a hub of creativity and enterprise. Each student is required to sign in for "work," creating a sense of responsibility and commitment akin to a real-world business setting. This daily ritual not only instills a professional mindset but also prepares these budding entrepreneurs for the world beyond academia.

STUDENTS VOLUNTEERING

In a heartwarming display of community engagement, students from Riverscape Career Tech High School recently dedicated their time and efforts to support the Dayton Liederkrantz-Turner, Dayton's oldest German organization. Established with the mission to promote and preserve German culture and traditions in the Miami Valley, the Dayton Liederkrantz-Turner holds a special place in the community's heart, and Riverscape students were eager to contribute to their cause.

The experience was not just about setting up chairs; it was a meaningful opportunity for Riverscape students to connect with the community and contribute to the success of a cultural organization with a legacy spanning generations. As the holiday celebration unfolded, the sense of pride and accomplishment among the students was evident, reinforcing the importance of fostering a strong sense of community and cultural appreciation within the younger generation.
